SUMMARY

Computer Science and Engineering student with knowledge of Java and a strong interest in software development. Currently learning Data Structures and Algorithms and Full Stack Web Development, along with UI/UX design. Seeking an entry-level opportunity to apply my skills, gain practical experience, and continue developing as a software professional.

EDUCATION

B.E,Computer Science and Engineering Graduating May 2028
Easwari Engineering College 9.00 GPA
Anna University
Relevant coursework: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

TECHNICAL SKILLS

Language: Java
Web Development: HTML, CSS, JavaScript
Tools and Design: Figma, Git, Github
API Development: MuleSoft, API Design, API Development, API Deployment
Currently Learning: MERN Stack, Data Structures and Algorithms

INTERNSHIP EXPERIENCE

1M1B (One Million for One Billion) in collaboration with IBM SkillsBuild AICTE, Bengaluru, India(remote): Green Intern Dec 2025 – Jan 2026

- Worked on a Multiple Product Life Cycle Analysis and Environmental Dashboard project, analyzing and comparing the environmental impacts of multiple products.
- Created and worked with data visualizations and dashboards to present the analysis and findings.
- Selected as a Top Performer for the internship.

ACADEMIC PROJECTS

Code Archaeologist - AI-Powered Codebase Intelligence Tool Full-stack web app (Next.js, Node.js/Express, Google Gemini API) | GitHub

- Built a full-stack developer tool that helps engineers understand unfamiliar Java codebases by parsing source files to extract classes, methods, and imports, then using the Gemini API to answer natural-language questions grounded in the actual code.
- Implemented static-analysis features including dependency/impact analysis (identifying which files are affected by a given class) and automated code-smell detection (hardcoded secrets, empty catch blocks, missing authorization checks, overly long methods

UI/UX Design Projects | Sterling Dental Clinic| IPL Website

- Designed a Sterling Dental Clinic website and a Chennai Super Kings (CSK) IPL website interface using Figma
- Focused on creating clean layouts, intuitive navigation, and user-friendly interfaces while exploring UI/UX design principles.

CERTIFICATIONS

- Salesforce Certified MuleSoft Developer
- NPTEL – Privacy and Security in Online Social Media; Introduction to Industry 4.0 and Industrial Internet of Things; Blockchain and its Applications
- Data Science Workshop – Techgyan Technologies (IITM)
